

## Desired Values Calculations

Calcium: For 68% Base Saturation

$$\text{Desired Value} = (\text{TEC} \times 400 \times .68)$$

Magnesium: For 12% Base Saturation

$$\text{Desired Value} = (\text{TEC} \times 240 \times .12)$$

Potassium: For 4% Base Saturation

$$\text{Desired Value} = (\text{TEC} \times 780 \times .04)$$
