Sample Shipping Instructions

1. Use sample bags provided **by Logan Labs** or other **sturdy, leakproof** container.
2. Be sure bags are properly labeled. (Preferably with a marker)
3. Complete sample worksheet.
4. Fold top portion of bags with attached tin tie. Place bag in a zip lock bag. **(Doublebag)**.
5. Neatly and firmly, pack the samples into a plastic lined box. Pack with newspapers to keep samples tight and to avoid shifting during shipment. This will ensure that samples stay in tact and there will be no contamination between samples.
6. Ship samples to: Logan Labs 620 North Main St. Lakeview, OH 43331
7. All samples shipping from outside the United States require APHIS permit stickers on the box. Please contact the lab for this permit.

*** Please review the Permit Conditions listed on the Soil Permit.
