

## Soil Test Packages

### Standard Test **25.00**

The Standard Test package includes pH, organic matter, base saturation, total exchange capacity, Mehlich III extractable sulfur, phosphorous, calcium, magnesium, potassium, sodium, boron, iron, manganese, copper, zinc, aluminum (\*ammonium acetate method available.)

### Standard with Extras **30.00**

The standard test w/ Cobalt, Molybdenum, Selenium, Silicon, Conductivity, ENR

### Saturated paste **30.00**

The saturated paste package includes pH, soluble salts, chloride, bicarbonate, water soluble phosphorous, calcium, magnesium, potassium, sodium, boron, iron, copper, zinc, aluminum, sulfur, and manganese.

### Complete package **55.00**

The complete soil package includes Standard package plus saturated paste package plus nitrate and ammonium.

### Complete plus Extras **60.00**

The complete package plus Co, Mo, Se, Si, EC, ENR

## Water

### Irrigation Water Monitoring **35.00**

The irrigation water monitoring package includes: pH, soluble salts, chloride, bicarbonate, carbonate, alkalinity, hardness, SAR, calcium, magnesium, potassium, sodium, iron, boron and sulfate.

### Irrigation Water Suitability **42.00**

The irrigation water suitability package includes: irrigation water monitoring package, plus nitrate, adjusted SAR, pHc, Phosphorus.

### Additional testing (Standard Soil test required)

Ammonium Acetate .....	\$30
Arsenic (As)(M3 extractable) .....	\$20
Arsenic (As)(total) .....	\$50
Bray I .....	\$10
Bray II .....	\$10
Buffer pH .....	\$9
Bulk Density .....	\$5
C/N Ratio .....	\$18
Cobalt (Co).....	\$10
Co & Mo .....	\$12
Conductivity (EC) .....	\$10
Est. Nitrogen Release (ENR) .....	\$0
Lead (Pb) (extractable) .....	\$20
Lead (Pb) (total).....	\$50
Media Weight % .....	\$0
Molybdenum (Mo) .....	\$10
Nickel (Ni) .....	\$10
Ni & Se .....	\$12
Nitrate & Ammonium .....	\$16
Nitrogen (total) .....	\$10
Olsen .....	\$10
Selenium (Se) .....	\$8
Silicon (Si) .....	\$10

### Particle size analysis

% Sand, % silt, % clay	30.00
% Sand, % silt, and % sand fractions.	40.00

## Plant tissue

### Complete plant tissue package **40.00**

The plant tissue package includes: nitrogen, phosphorous, potassium, calcium, magnesium, sulfur, boron, iron, sodium, manganese, copper, and zinc.

## General information

### Turnaround time

All sample analysis will be completed in 3-5 working days. Reports are available as soon as the analysis is completed. If you haven't received your results within a week contact the lab.

### Sample storage

Samples are retained for 4 weeks.

### Confidentiality

All reports are the property of the client. Reports will not be sent to any other individual without permission from the client.

### Invoicing/terms

Invoices are generated daily and a monthly statement is generated at the end of each month. We accept checks (within the U.S.), money orders, and most major credit cards.

### Add-Ons

There will be a handling fee added to all add on tests if soil has already been completed. Call for pricing!!!

### All samples must be accompanied by a Submission Worksheet.

Prices are subject to change!

### All prices are PER sample!!!
